

List of Gynaecological Operations

- A. Benign Conditions – Major Abdominal Operations
 1. Total hysterectomy +/- bilateral/unilateral salpingo-oophorectomy
 2. Subtotal hysterectomy +/- bilateral / unilateral salpingo-oophorectomy
 3. Repair of urinary fistulae
 4. Myomectomy
 5. Ovarian cystectomy
 6. Oophorectomy/salpingo-oophorectomy
 7. Salpingectomy
 8. Salpingotomy
 9. Surgery for stress incontinence
 10. Adhesiolysis/tuboplasty
 11. Drainage of pelvic abscess
 12. Miscellaneous

- B. Malignant Diseases – Major Abdominal Operations
 1. Total hysterectomy +/- bilateral/unilateral salpingo-oophorectomy
 2. Subtotal hysterectomy +/- bilateral/unilateral salpingo-oophorectomy
 3. Wertheim's hysterectomy
 4. Pelvic exenteration
 5. Debulking
 6. Extended hysterectomy
 7. Oophorectomy/salpingo-oophorectomy
 8. Miscellaneous

- C. Major Vaginal Operations
 1. Surgery for incontinence
 2. Vaginal hysterectomy
 3. Vaginal hysterectomy with repair of prolapse
 4. Repair of prolapse
 5. Repair of urinary fistulae
 6. Miscellaneous

- D. Major Vulval Operations
 1. Radical vulvectomy
 2. Simple vulvectomy
 3. Wide local excision
 4. Miscellaneous

- E. Endoscopic Procedures
 1. Diagnostic laparoscopy
 2. Laparoscopic sterilization
 3. Other laparoscopic procedures
 4. Diagnostic hysteroscopy
 5. Endometrial resection/ablation
 6. Other hysteroscopic procedures
 7. Cystoscopy
 8. Laparoscopic assisted vaginal hysterectomy (LAVH)/laparoscopic hysterectomy (LH)
 9. Laparoscopic assisted subtotal hysterectomy (LASH)
 10. Laparoscopic myomectomy
 11. Laparoscopic myolysis
 12. Laparoscopic ovarian cystectomy
 13. Laparoscopic oophorectomy/salpingo-oophorectomy
 14. Laparoscopic ovarian drill
 15. Laparoscopic salpingectomy
 16. Laparoscopic salpingotomy

17. Laparoscopic colposuspension
 18. Laparoscopic adhesiolysis
 19. Laparoscopic ablation/resection of endometriosis
 20. Laparoscopic drainage of abscess
 21. Laparoscopic lymphadenectomy
 22. Hysteroscopic polypectomy
 23. Hysteroscopic myomectomy
 24. Miscellaneous
- F. Colposcopy Related Procedures
1. Cervical cautery/cryotherapy/cold coagulation
 2. Laser vaporization of cervical lesions
 3. Laser cone
 4. Loop diathermy excision
 5. Cone biopsy
 6. Miscellaneous (including cervical biopsy)
- G. Assisted Reproduction Procedures
1. Ultrasound guided oocyte retrieval
 2. Laparoscopic oocyte retrieval
 3. Gamete intrafallopian transfer
 4. Pronuclear stage tubal transfer
 5. Embryo transfer
 6. Miscellaneous
- H. Minor Abdominal Operation
1. Tubal ligation
 2. Resuturing of abdominal wound
 3. Miscellaneous
- I. Other Minor Operations
1. Diagnostic curettage (including avulsion of polyp)
 2. Therapeutic abortions (suction evacuation)
 3. Evacuation of retained products of conception (including suction evacuation for missed/incomplete abortion, post-sulprostone evacuation)
 4. Marsupialization
 5. Cervical cerclage
 6. Other minor vulval operations (including evacuation of vulval haematoma, vulval biopsy)
 7. E.U.A.
 8. Endometrial biopsy
 9. Miscellaneous
- J. Radiotherapy
1. Intracavitary radium/cesium
 2. External irradiation
 3. Miscellaneous
- K. Other Forms of Treatment
1. Observation and investigation
 2. Antibiotic as primary treatment
 3. Prostaglandins
 4. Hormones (O.C., progestogens, danazol, GnRH)
 5. Chemotherapy
 6. Other medication
 7. Miscellaneous
