

Summary of experience logging during the transition to the new curriculum 2025

Please take note of the interim measures during the transition period to the new Curriculum and fill in the table below.

	Yes	No
"OM" (Other Methodologies)		
If a trainee cannot encounter certain important conditions in the Modules throughout the training period, he/she can adopt the option of "OM" as specified in the new curriculum.		
Flexible training (Please provide more details if yes)		
Trainees can opt for flexible training as stated in the new curriculum.		

No. of logged procedures: If a trainee does not meet the minimum number for certain procedures according to the old curriculum, 2 summative OSATS can be submitted for that procedure plus the minimum number specified in the new curriculum instead.

Colposcopy: Trainees can choose to follow either the old or the new curriculum.

Procedures	Number logged	Summative OSATS*	Requirement *	
			Curriculum 2022	Curriculum 2025
Caesarean section		1 / 2	100	100
Operative vaginal deliveries		1 / 2	100 (minimum of 10 forceps delivery)	50 (minimum of 10 forceps delivery)
Major abdominal surgical procedures		--	60	60
Laparoscopic procedures	Level I: Level II: Level III or above:	1 / 2	50 (> 40 at level II or above)	30 (>=3 types: >=10 at level III or above)
Major vaginal surgical procedures		--	10	10
Evacuation of uterus / termination of pregnancy		1 / 2	50	20 (≥ 5 with cervical dilatation)
